WED AT GOTHAWS

FAMOUS GRETNA GREEN

A special from New York says:

"Elgin R. Graves, of Richmond, Va., stopping at the Hotel York, was married to Miss Haidee Hoagland, of South Pittsburgh, Tenn., at the Little Church Around the Corner, this morning.

"Mr. Graves, who is connected with a bat-manufacturing company of Crange, N. J., and whose offices are in New York City, is well known in Richmond society circles, and is a member of the Commonwealth Club, of Richmond, He told The Times-Dispatch correspondent to-night that he and his bride had not determined upon where they would spend their honeymoon, but said they would make their home in Richmond, after a brief wedding trip." 

### WILL PROSECUTE

Government After Physicians Who Send Specimens Improperly Packed. The State Board of Health has been notified by the postal authorities that three times recently specimens of disease germs were sent to the State Laboratory in containers that did not conform to government regulation, and that the doctors who sent them would be prosecuted in the United States Court. The board has also been informed that it must advise the postal department whenever it receives specimens in containers other than those approved by the board and accepted by the United States government.

In the cases which are to be prosecuted, dangerous specimens were sent to the laboratory in bottles. In one instance, a specimen was forwarded in a plain bottle, merely wrapped in paper, and otherwise unprotected. It contained the active germs of tuberculosis. A specimen of diphtheria germs was in almost as bad condition.

To facilitate the examination of specimens, the State Board of Health has had manufactured and has distributed to physicians containers that are absolutely safe and in conformity with the law. Where these containers are not used, and where specimens that endanger the lives of postal employes and laboratory-workers are sent through the mail vigorous prosecutions will be begun by the government. through the mail vigorous prosecution 

will be begun by the government

Suspected of Having Smallpox, Is Left Isolated in Deserted Camp.

Judge John W. Price Motors Across Virginia from Bristol to Richmond.

Judge John W. Price, of Bristol, arrived in Richmond yesterday with a motor car party, having come overland from Southwest Virginia. He said that throughout the trip he had given close attention to crop conditions, and generally speaking, considered the prospect excellent. The spring drought in some sections had made crops backward, but under recent weather conditions they were coming on well. He was especially impressed with the general appearance of vegetation in the neighborhood of Lynchburg.

Judge Price will leave for Bristol today, after meeting a number of acquaintances here.

Normal School Closes To-Day Normal School Closes To-Day.

The summer normal of the Virginia Union University will hold its final sessions at the university to-day. An interesting exhibit of free-hand and mechanical drawing, carving, basket weaving and household handicraft has been arranged, and the general public has been invited to atend. The normal has been held under the auspices of the State and city school boards.
